

Because inner values count! Whether it's the headlights of the Passat or the chips for the Thermomix - the printed circuit boards and electronic modules assembled by us are contained in countless well-known end products. With 700 employees, a turnover of over 150 million euros and two production sites in Europe, we are already shaping the EMS of tomorrow.

## WHAT CAN YOU EXPECT?

- Processing of inquiries from our sales department
- Obtaining and evaluating quotations with a focus on Asian suppliers
- Materials management planning, determination of requirements and ordering
- Supplier selection and development
- Deadline tracking
- Project purchasing
- Support disposition in series

## WHAT WE OFFER YOU

- Performance related pay
- Team oriented work
- An interesting working environment
- Independent work
- Very good prospects in a strongly expanding, internationally active company

Your application documents with indication of your earliest possible starting date and your salary. Please send your salary expectations by e-mail to our personnel department:

In order to achieve this goal, it is necessary, among other things, to select excellent service providers and suppliers, to provide parts and components on time while meeting cost targets, deadlines and the highest quality standards. We need reinforcement and are looking for an ambitious manager as soon as possible:

# Strategic Buyer (m/f/d)

## OUR PREFERRED CANDIDATE

- Several years of professional experience in technical purchasing, ideally with a focus on printed circuit boards
- Professional negotiation skills with suppliers
- Ideally extensive knowledge of electronic and electromechanical components
- Good to very good knowledge of English
- Relevant experience with an ERP system
- Willingness to travel on a regular basis, especially to our German headquarter
